

A FIELD GUIDE TO THE TIGER BEETLES OF INDIA

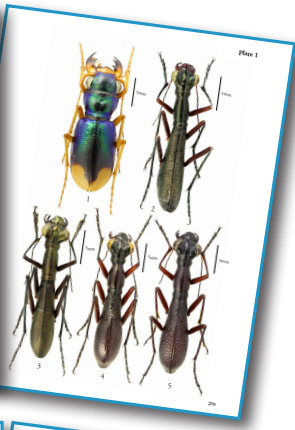

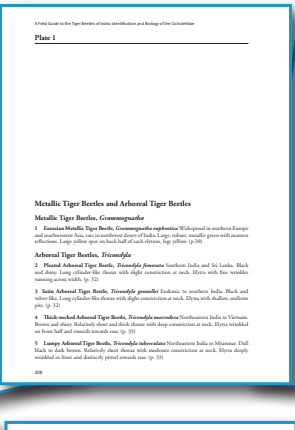

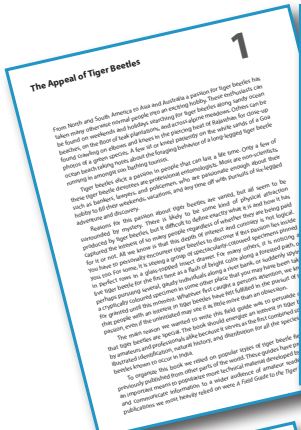

IDENTIFICATION AND BIOLOGY OF THE CICINDELIDAE

David L. Pearson | Jürgen Wiesner
Robert E. Acciavatti | V. P. Uniyal
Alexander Anichtchenko

This *Field Guide to the Tiger Beetles of India* is the first definitive identification guide to all 241 species of tiger beetles known to occur in India. Its descriptions of habitats, behaviour, and ecology make available a group of spectacular insects for both amateur enthusiasts and professional biologists to observe and study. In addition to their value as a hobby, with this field guide tiger beetles can now better serve as a valuable tool for understanding general patterns of biodiversity, biogeography, and conservation within India. Featured in this field guide are:

- A list of common names
- The latest taxonomic revisions
- Thirty-two colour plates with images of all Indian species and subspecies
- Identification keys and general descriptions of species characteristics
- Distribution maps with the known range of each species within India
- Current knowledge of biology and seasonality

David L. Pearson is a Research Professor at the Arizona State University, Tempe, USA. He has conducted research on tiger beetle ecology, biogeography, and their uses in mathematical modelling worldwide. For six years he ran field studies on these beetles throughout India in cooperation with professors and students from Chandigarh (Panjab University) and Bengaluru (University of Agricultural Sciences).

Jürgen Wiesner is a retired Section Manager for Volkswagen Group in Wolfsburg, Germany. He is one of the world's leading taxonomists on tiger beetles and has published more than 150 articles on this group of beetles. He is presently writing the 2nd edition of the Checklist of the Tiger Beetles of the World.

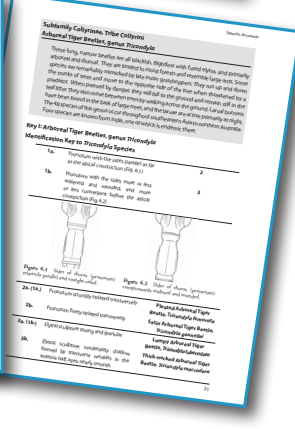

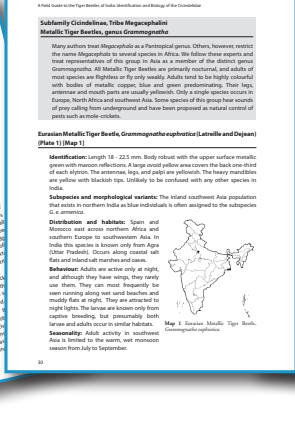

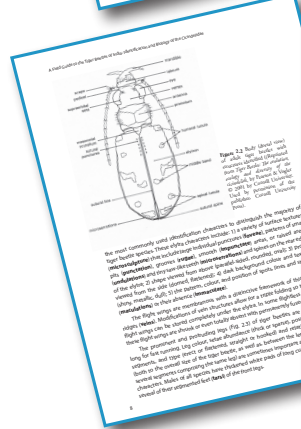

Robert E. Acciavatti is a retired Forest Entomologist from the US Forest Service. He presently is a Research Associate in the Invertebrate Zoology Section of the Carnegie Museum of Natural History, Pittsburgh, USA. He has published numerous taxonomic articles on tiger beetles from Asia and the Americas.

V. P. Uniyal is a Senior Professor and Scientist-G in the Wildlife Institute of India, Dehradun. He has been involved in ecological studies on high altitude insect diversity and identifying insects, including tiger beetles, as indicators for biodiversity monitoring in protected areas of northern India. His studies on insect conservation in the Himalayan region have provided many new insights into their biology and usefulness in management plans.

Alexander Anichtchenko is a Senior Scientific Investigator and Curator of the Coleoptera Collection in the Institute of Life Sciences and Technologies, Daugavpils, Latvia. He was also the scientific illustrator in the Publishing House of the Museo Nacional de Ciencias Naturales de Madrid, Spain, and produced the colour plates in this field guide. He has published several taxonomic articles on tiger beetles and is author of the international web project "Carabidae of the World", <http://www.carabidae.org>.

Year : 2020, Pages : viii, 316, ISBN : 978-81-211-0933-8, Binding : Soft Bound, Size : Demi,
Price for India: Rs 695.00, Foreign Price: US \$ 35.00, British Pound £ 30.00, Euro 32.00

The order for the book "A Field Guide to the Tiger Beetles of India Identification and Biology of the Cicindelidae" can be sent by Post, Phone, Fax or E-mail to M/s Bishen Singh Mahendra Pal Singh, 23 A Connaught Place, Dehra Dun 248001, Uttarakhand, INDIA, Ph: +91 135 2715748, Fax: +91 135 2715107, Email: bsmpsbooks@gmail.com

Foreign payment can be sent through PayPal Account <bsmpsbooks@gmail.com> processing fee for PayPal is 4.5% which needs to be added in the total amount.

For payment through foreign bank transfer kindly write to us for account details.

Payment from India may be sent through at par cheque, drawn in favour of M/s Bishen Singh Mahendra Pal Singh, payable at Dehradun, or through bank transfer to our following bank accounts.
Postage would be charge on actual.
